# Inspiration

---

Mosaic is an ancient art form that transforms materials into light, turning geometry into poetry. Each tile captures a fragment of reflection, creating an endless interplay of shades and glimmers. It transcends being just a simple surface; it becomes an experience, a dialogue between matter and light, as well as between tradition and innovation. The tiles blend harmoniously, bringing to life vibrant scenes and emotions that are embedded in the material.

Mohs Satin

Bright Glass creates a smooth surface that reflects light in a mirror-like way, creating a bright and shiny effect, increasing the depth effect.

Satin Glass creates a matte surface, rougher to the touch, with a softer diffusion of light and a slightly velvety effect.

Available in a variety of finishes,  
the mosaic deepens and brightens  
surfaces, creating intriguing light plays  
and refined textures.
