Structura **3D - Uneven**

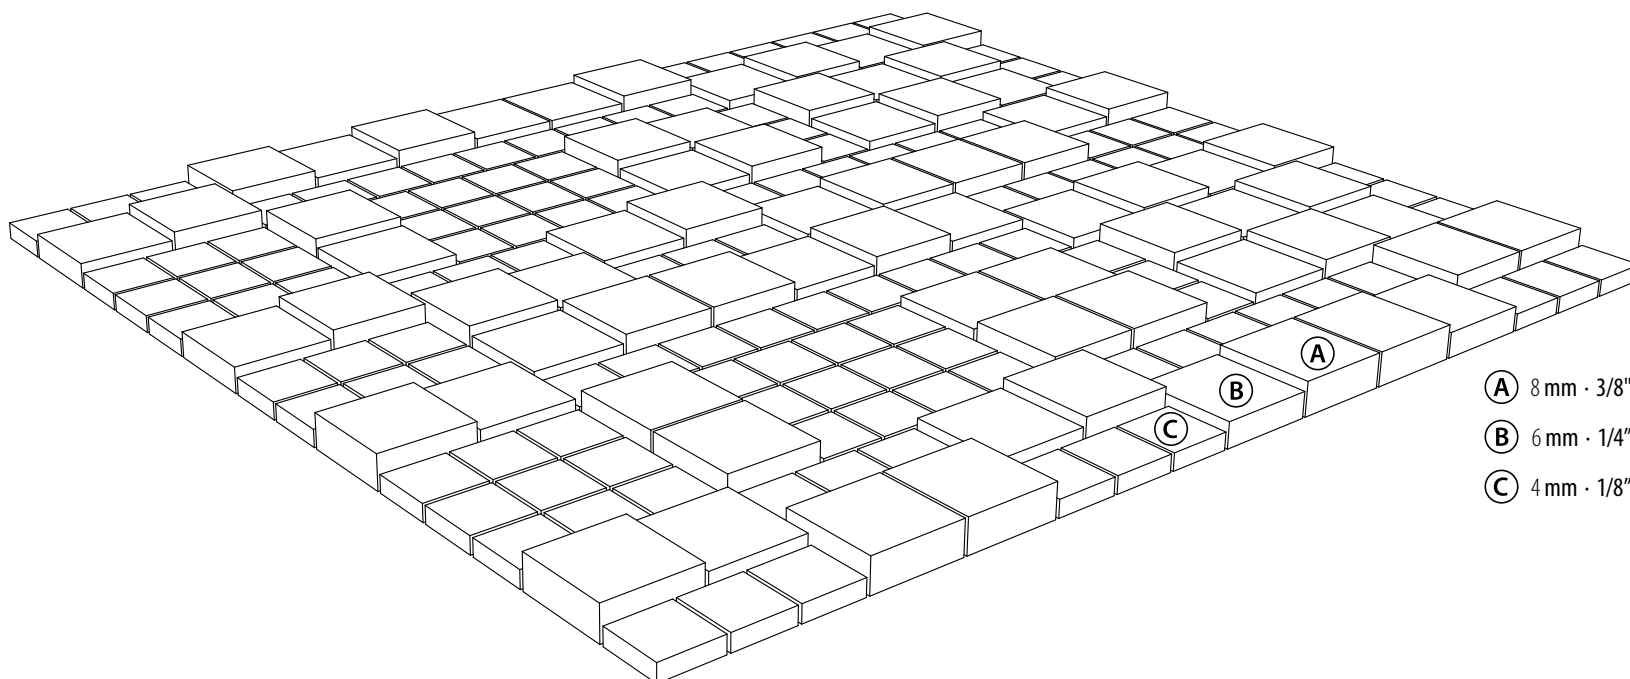

Spessori, trasparenze, proiezioni di luce, vetro, specchio, marmo e vetro, legno.

La collezione Structura propone pannelli di mosaico realizzati con tessere quadrate di mosaico caratterizzate da spessore, dimensione, colore e texture differenti, per un intrigante effetto tridimensionale.

Mosaici abbinati "ton sur ton" o a contrasto, in abbinamenti che paiono casuali ma che sono stati sapientemente abbinati a creare movimenti materici, volti ad enfatizzare la particolarità e la luminosità di questa collezione.

Structura punta sulla tridimensionalità di un mosaico che, in un gioco di forme e spessori, ricrea l'effetto di una cascata che scorre scintillante su pareti che brillano di un effetto studiato per stupire, originale ed unico.

Technology

Structura **Liscio - Even**

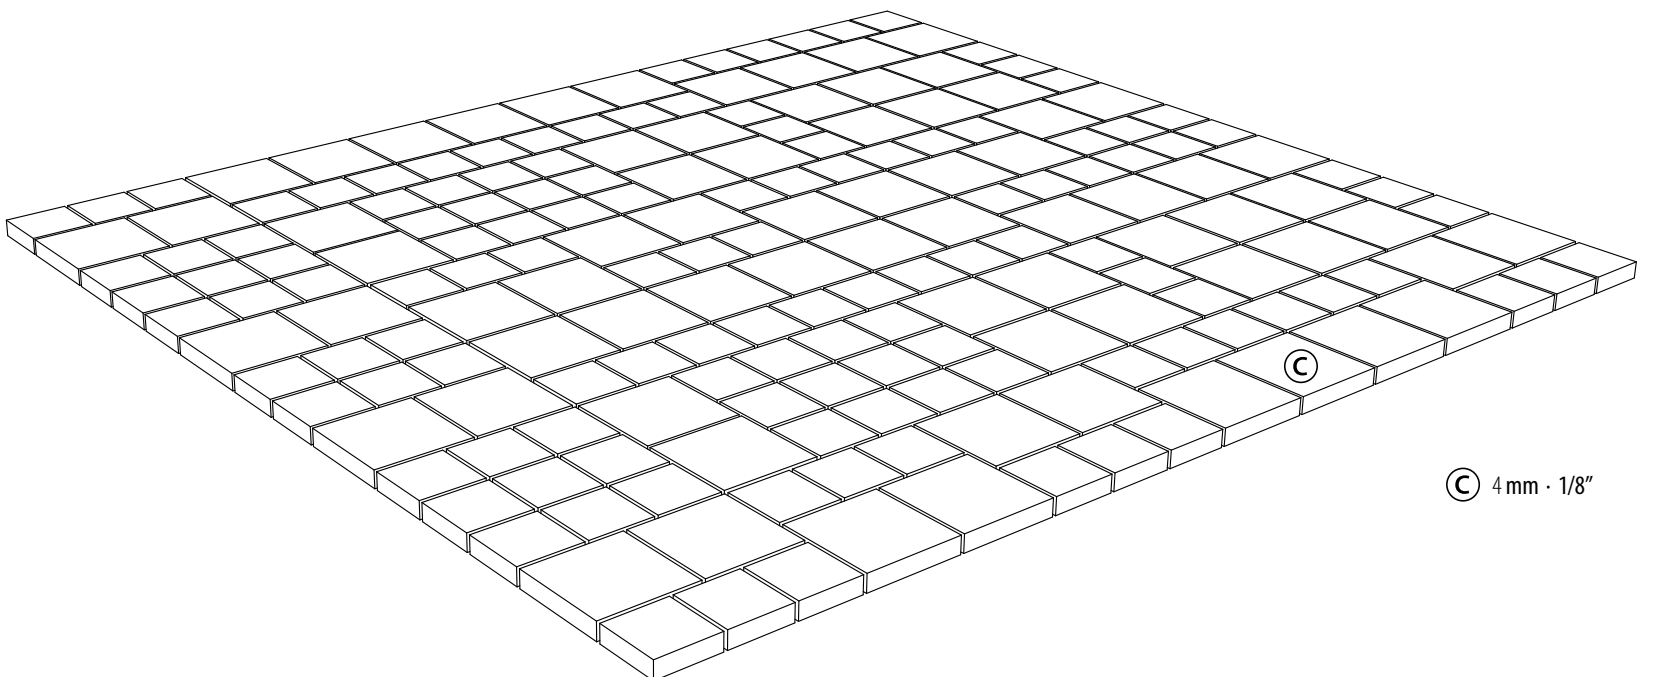

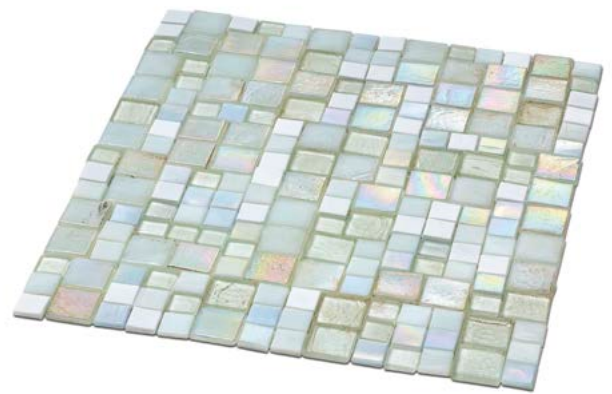

Thicknesses, transparencies, light projections, glass, mirrored surfaces, marble and glass, wood.

The Structura collection features mosaic panels made of square tesserae that vary in thickness, size, colour and texture to create an intriguing three-dimensional effect.

Available in matching or contrasting tones, the mosaic combinations appear random but have actually been expertly calibrated to create material movement, with the aim of emphasising the uniqueness and luminosity of the collection.

Structura focuses on the three-dimensionality of mosaic that, in a play of shapes and thicknesses, creates the effect of a sparkling waterfall flowing down the walls, which shine with an original, unique effect designed to astonish.

10 Mood

10

La collezione è composta dai mood degradè, con infinite possibilità di accostamenti e di sfumature, e altri 9 mood selezionati dalla palette Sicis Colours, con morbidi toni caldi, impreziositi da esplosioni ramate e tessere in oro platino, oppure in mix argentei abbinati a punte di verde o viola intensi, o in combinazioni più ardite di rossi profondi e lucenti, oppure ancora in combinazioni dall'allure più candida, con iridescenze e sfumature latte, eleganti come un'acquamarina.

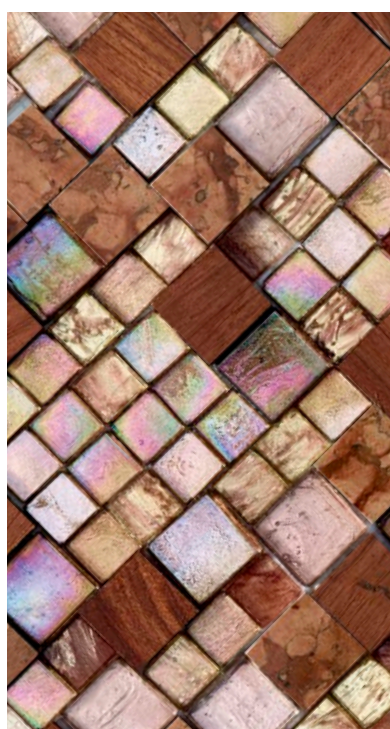

Structura è una collezione-scrigno che racchiude in sé un prezioso contenuto: la storia e l'esperienza di Sicis che negli anni ha saputo attingere a una continua ricerca di sottile armonia, unita alla bellezza dei suoi materiali, miscelando equilibri e contrasti, creando nuove percezioni, giocando con la luce, con le trasparenze e le iridescenze degli specchi, in una suggestione continua, perfettamente riassunta in questa collezione.

The collection includes graduated colourways, with infinite possibilities for combinations and gradations, and nine colourways selected from the Sicis colour palette.

These include soft warm tones embellished with explosions of copper and platinum gold tesserae, silvery mixes paired with glints of intense green or violet, bold combinations of dark glossy reds, and alluring white compositions with iridescent effects and milky gradations, with the elegance of aquamarine.

Structura is a jewel-box collection with a special treasure at its core: the history and experience of Sicis, long dedicated to a passionate search for subtle harmony united with beautiful materials, mixing balance and contrast, creating new perceptions, playing with light and experimenting with the transparencies and iridescence of mirrored surfaces, for an endless fascination that is perfectly expressed in this collection.
