THE SICIS LIGHTING COLLECTION

SICIS

AtmoSphera... SICIS e la luce.

Un binomio che unisce la sapienza del fare con la magia del mosaico e dei suoi irripetibili riflessi. Ecco la luce che si materializza in volumi perfetti: sfere. Piccole e grandi, attraversate da segni e colori spettacolari. Quasi fossero corpi celesti che vivono sospese nel vuoto o appoggiate a terra rivelando la propria doppia natura: spente si fanno accarezzare dalla luce che le colpisce creando bagliori e scintillii; accese emanano un luore morbido e soffuso che si colora delle sfumature più rare. Così come la Luna vive di luce riflessa, così il Sole vive di luce propria... Un omaggio, nella forma e nella sua innata spazialità, anche alle architetture di ieri e di oggi, dove la linea curva e il volume cavo delle cupole e delle volte si fanno portavoci dell'infinito e del meraviglioso.

AtmoSphera... SICIS and the light.

A duality mixing the wisdom of doing and the magic of mosaics and its irrepeteable reflexes. Light materializes itself in perfect forms: spheres. Small spheres, big spheres, sporting spectacular designs and colours. Like celestial bodies, they seem to float in the air, or grace the earth with their double nature: when switched off they let the light caress them and show the surface of their essence. When switched on, they reveal a subdued, soft nature, coloured in the sweetest hues. As the Moon shines from the reflected light, and the Sun of the one it emits. A homage to modern and ancient architectures, where the play of the curves and the hollow volume of the domes become a medium conducting us towards infinity and marvel.
