Preface

Sicis continues the exploration in the field of furniture and lifestyle by reinterpreting with great intuition the ancient mosaic art; undergoing at the same time the challenge to introduce the theme of mosaic to precious and exclusive textiles.

Iconic collections of the Maison and some artistic decorations, that emphasize the craftsmanship and refinement of this art, have been chosen and translated into precious textures.

The difficult task has been to make visible the patterns through the tesserae, without flattening them and highlight the richness of the 'mosaic in textile' thanks to the difference of loom battening speed.

It is a great emotion being able to transfer mosaic art into textiles, a surprise to discover precious objects, unique in their category, using a universal language for expressing new fascinating projects.

Prefazione

Sicis prosegue il percorso nel campo dell'arredo e del lifestyle reinterpretando l'antica arte musiva con una grande intuizione ed al tempo stesso una sfida, trasporre il tema del mosaico in tessuti preziosi ed esclusivi.

Sono state scelte le collezioni iconiche della Maison, e alcuni decori artistici che sottolineano l'artisticità e la raffinatezza di questa arte e sono stati traslati entro trame di filati preziosi.

Far leggere i pattern attraverso le tessere senza appiattirne l'effetto plastico, mettere in evidenza i rilievi e far emergere, grazie alla differenza di battute del telaio, la ricchezza del 'mosaico in tessuto', è stata la vera sfida.

Essere riusciti a trasferire l'arte musiva in tessile è un'emozione, la sorpresa degli oggetti pregiati, unici nel loro genere, un linguaggio universale con cui scrivere sempre nuovi affascinanti progetti.

COLLECTIONS

Elegance and refined patterns confer to the collections Textile a strong visual impact.

The collection embraces textiles woven from pure silk, wool, cotton, linen and lurex, with three-dimensional effect, for upholstery and exclusive curtains. This edition is a perfect blend of skilled craftsmanship, research and innovation.

The precious textiles are the result of special weaving processes, that exalt intrinsic qualities of the threads, highlighting colors, nuances, tesserae of a silky mosaic.

L'eleganza e la ricercatezza dei pattern donano una grande forza espressiva alle collezioni Textile.

Intrecci di filati in pura seta con filati in lana, cotone, lino e lurex, la collezione comprende tessuti dall'effetto tridimensionale, utilizzati per rivestire arredi o tendaggi esclusivi. Questa linea è la perfetta congiunzione tra abilità artigianale, ricerca e innovazione.

Tessuti pregiati, filati particolari lavorati per esaltarne le qualità intrinseche e dare vigore ai colori, alle sfumature, alle tessere di un morbido mosaico.

Tapestry Collection

Extraordinary tapestries inspired by the iconic mosaic rugs from the Sicis Rug Collection. Created with materials such as precious marbles, stones and gold, the Rug collection is now interpreted with silks, cottons and exclusive yarns. Thanks to the processing procedure on a Jacquard loom, with superimposed points and the texture grain, superlative works have been realized in order to enhance each detail from the original drawings. What makes them even more fascinating are the special colors used and the hues that give to the patterns a magnetic brightness. The Collection is entirely produced in Italy and all the tapestries can be supplied with frames, elaborated according to the project needs.

Arazzi straordinari riprendono l'iconografia classica dei tappeti in mosaico della Collezione Sicis Rug. Creati inizialmente con materiali quali marmi pregiati, pietre, oro, sono ora interpretati con sete, cotone e filati esclusivi. Grazie al procedimento di lavorazione su telaio Jacquard, per mezzo di punti sovrapposti, alla grana della trama, sono state realizzate delle opere superlative che esaltano ogni minimo dettaglio dei disegni originali. Ciò che li rende ancora più affascinanti sono i colori particolari e le gradazioni che donano una luce speciale al disegno.

La Collezione è prodotta totalmente in Italia e tutti gli arazzi possono essere forniti con intelaiature elaborate a seconda delle esigenze del progetto.

Jakuchu Collection

Sicis' creativity has conceived the new textiles collection, inspired by the works of the Japanese painter of the Edo period, Ito Jakuchu, already reproduced by the Atelier in artistic mosaic. The collection recalls the naturalistic, figurative and oriental decorative art. The panels are real arras tapestries, able to embellish walls of a mansion, adding a touch of grandeur and preciousness combined with artistic refinement. A more avant-garde version utilizes these elaborations for silk and cashmere blankets or sofas, chairs, and bed headboards upholstery. The use of special looms makes possible to realize a 'mosaic' effect, where fine threads create a soft texture of three-dimensional effect.

Dalla fucina creativa di Sicis nasce la nuova collezione di tessuti ispirati alle opere del pittore giapponese dell'epoca Edo, Ito Jakuchu, già riprodotti dall'Atelier in mosaico artistico. La collezione riprende quindi l'arte naturalistica, figurativa e decorativa orientale. I Pannelli sono dei veri e propri arazzi che possono adornare le pareti di una dimora dandone un senso di maestosità e preziosità, abbinata alla ricercatezza artistica. In una versione più d'avanguardia possiamo immaginare queste elaborazioni trasformarsi in coperte di seta e cachemire o rivestire divani, sedie e testiere di letti. Grazie all'utilizzo di speciali telai è possibile ottenere un effetto 'mosaico' dove pregiati filati formano una trama morbida dall'effetto tridimensionale.

Patterns Collection

Sicis' huge mosaic library has been brilliantly used for creating original textiles. The famous decors of Atelier Sicis 'artistic mosaics become magnificent textures. The 'tessera' effect is made possible by the dedicated technique of the loom battening, usually employed for high-end fashion products and now used by Sicis for completion of exclusive ambiances.

In addition to the patterns choice, that has always been a distinctive prerogative of the brand, much attention has been paid to the chromaticism. Therefore silk, cotton, lurex threads have been weaved to confer shades and brightness to these splendid paintings.

Sicis custodisce una library musiva enorme che ha brillantemente deciso di utilizzare per creare originali tessuti. I famosi decori in mosaico artistico dell'Atelier Sicis si trasformano così in magnifiche trame. L'effetto 'tessera' è reso possibile dalla particolare tecnica di battiture dei telai, adoperati solitamente per realizzare produzioni destinate all'alta moda, ed ora con Sicis al completamento di ambienti esclusivi.

Oltre alla scelta dei pattern che da sempre contraddistinguono il brand, molta attenzione è rivolta agli andamenti cromatici e per questo sono adoperati filati di seta, cotone, lurex, proprio per rendere ogni sfumatura e dare luminosità a questi splendidi dipinti.

Cosmati Collection

Cosmati is the name of the ornaments characterizing the XII and XIII century Roman marbles workers, who for centuries embellished the most important churches and noble palaces in Europe, by variegated and multiform polychrome marble marquetry. Rotations and symmetries follow a perfect mathematical order. A deep study of the cosmatesco mosaic has allowed Sisis to interpret this art in an evolutionary way and to create the "Cosmati Collection", with marble, glass, gold and other materials, grown as one of the most appreciated selection for architects and designers. Sisis through a constant research, wanted to emphasize the beauty of the precious and refined embroidery, developing a new collection of textiles. New horizons arise for the décor, already well known during Byzantine period. Now we can find this decor as completion of armchairs, sofas or many other furniture and home items.

Si chiamano Cosmati gli ornamenti caratteristici dei marmorari romani del XII e XIII secolo, che abbellirono per secoli le chiese più importanti d'Europa e palazzi nobili, mediante tarsie marmoree policrome di forme svariate e fantasiose. Rotazioni e simmetrie, secondo un ordine perfettamente matematico. Uno studio profondo del mosaico cosmatesco ha permesso a Sisis di interpretare quest'arte in maniera evolutiva e di creare la 'Collezione Cosmati', in marmi, vetri, oro e altri materiali, diventata negli anni una delle più apprezzate da architetti e designer. Sisis attraverso una costante ricerca, ha voluto enfatizzare la bellezza del prezioso e ricercato ricamo mettendo a punto una nuova collezione di tessuti. Nuovi orizzonti si aprono per il decoro già noto in epoca bizantina che ora possiamo trovare a completamento di poltrone e divani o in molti altri arredi e decorazioni.

Plain fabrics Collection

The color, realized in the Sicis Collections aims to complete a range of fine fabrics, using special materials, worked with looms which allow to obtain very high quality. The richness of the threads is accompanied by sapient chromatic knowledge and taste for plain colors, as gold, silver and unseen pastels. In the range, there is also a plain color that resembles with veins and nuances the effect of ancient marbles. The Collection Uniti offers solutions for covering seats, as well curtains and other ornaments, in combination with other Sicis' textiles.

Il colore è realizzato nelle Collezioni Sicis con l'idea di completare una gamma di tessuti pregiati, usando materiali particolari e lavorati con telai che consentono di ottenere un'altissima qualità. La ricchezza dei filati si accompagna alla sapienza cromatica e al gusto per le tinte unite tra cui l'oro, l'argento ed inediti pastelli. Nella gamma anche un falso unito che riprende proprio l'effetto dei marmi antichi con le venature e le sfumature dei colori. Offrono soluzioni per rivestire sedute, tendaggi ed altri ornamenti, in combine con gli altri tessuti Sicis.

Velvet Collection

The velvet, soft, luminous and fluid, is the result of a sophisticated spinning and weaving process. It results compact by touch and at the same time soft. The collections of Sicis are enriched by this refined textile, synonymous of tradition and innovation, precious symbol of the indissoluble bond between high fashion and design. In silk, linen, cotton and viscose version is available in a wide range of colors, that can be easily combined with the other Collections of the Maison.

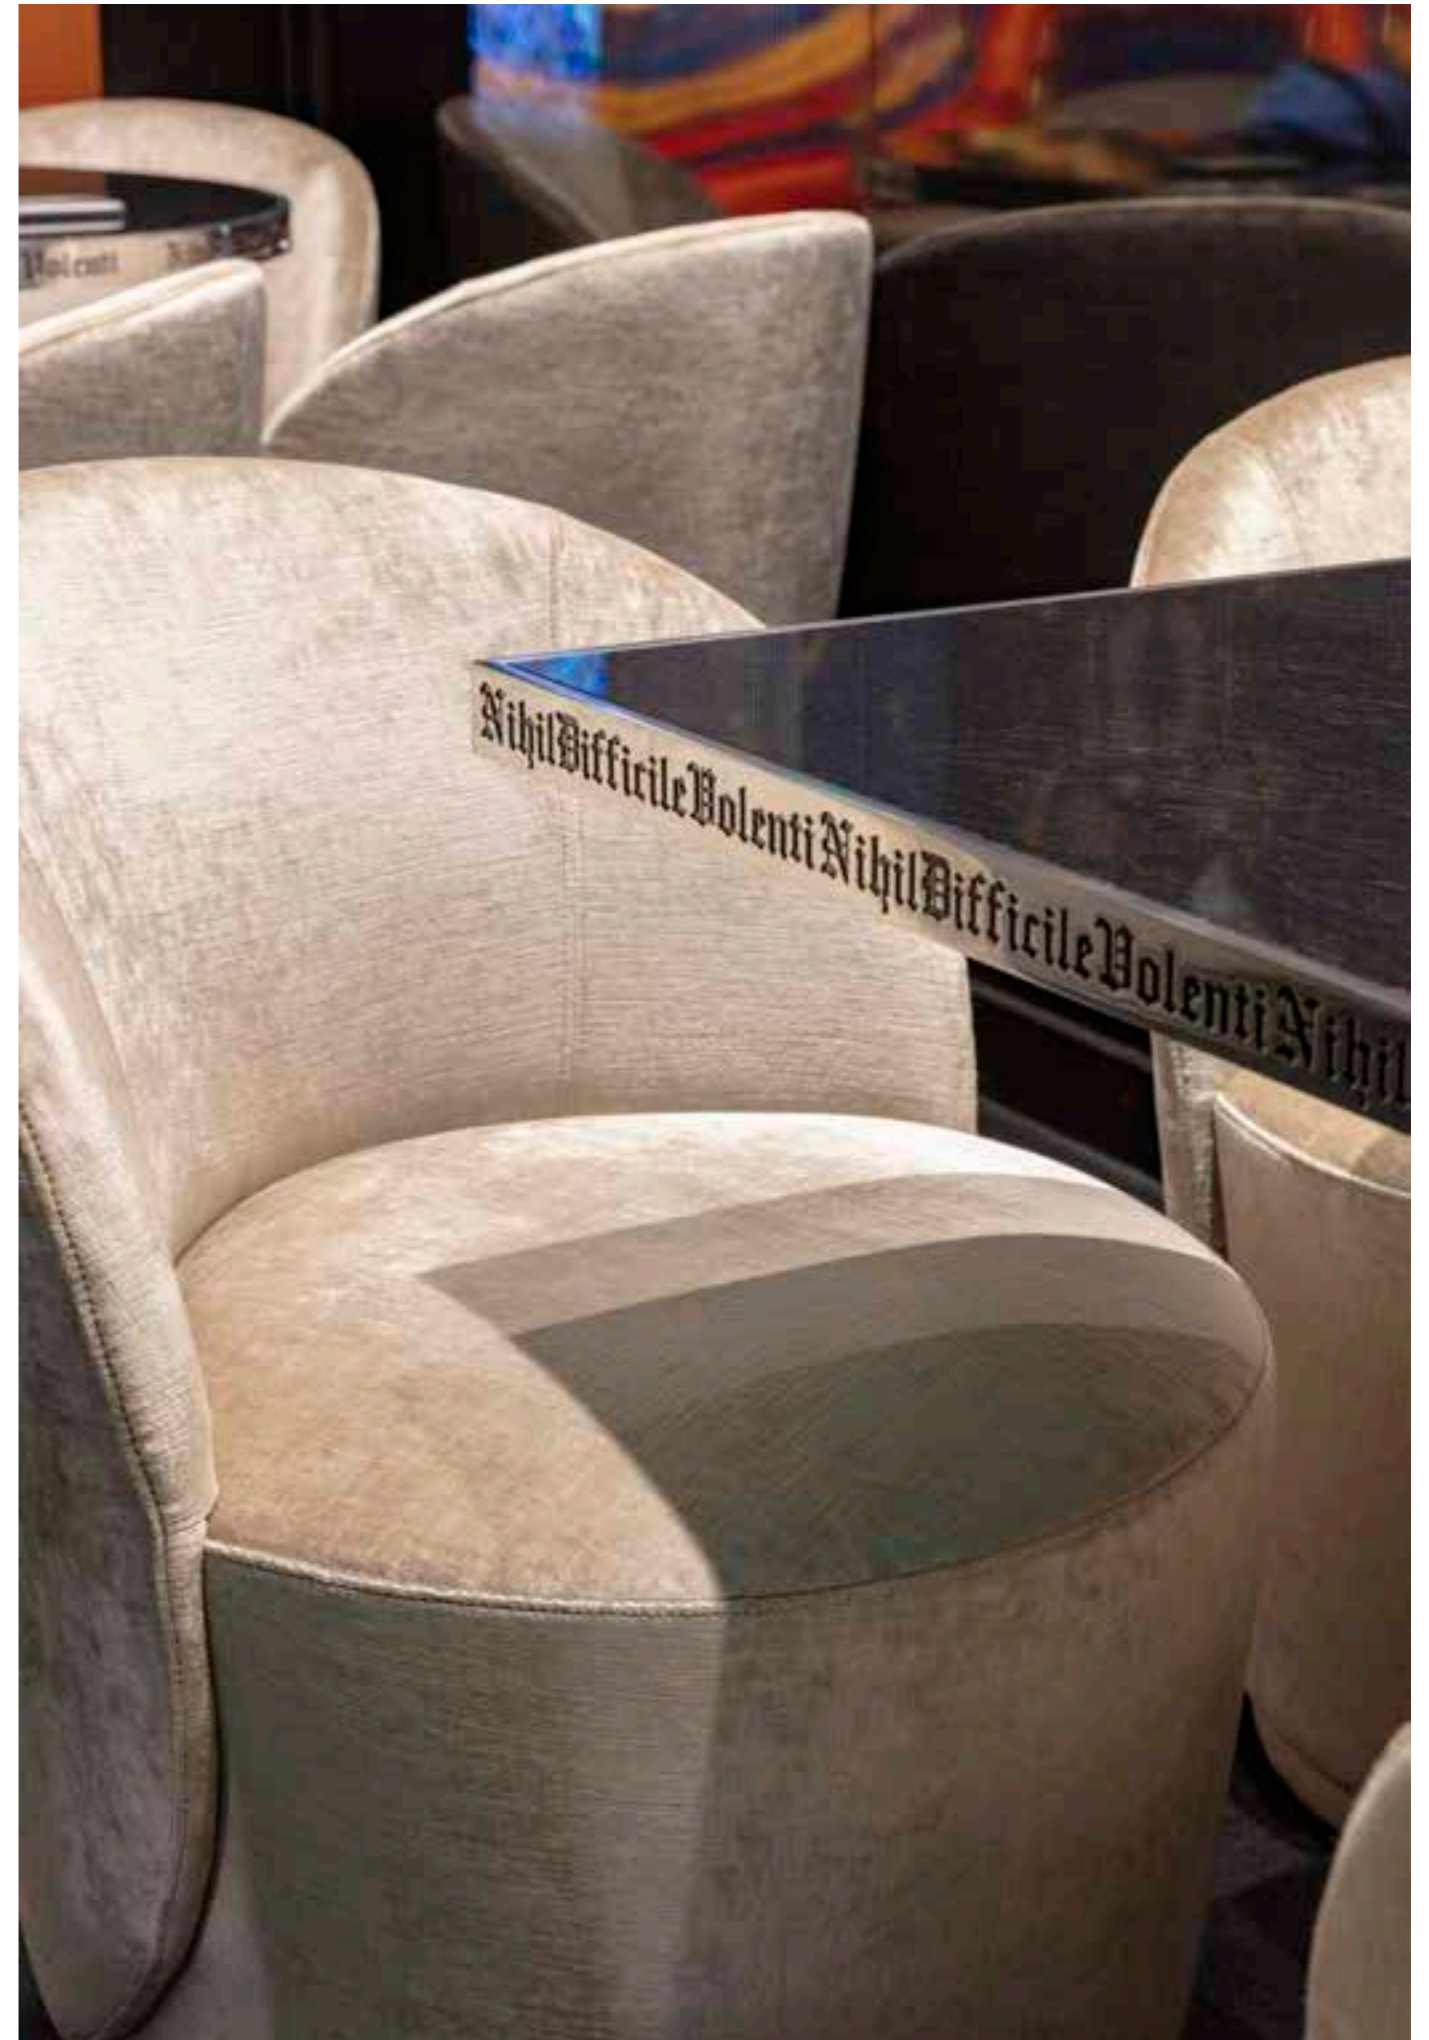

Il velluto, morbido, luminoso, fluido, è il risultato di un sofisticato processo di filatura. Risulta compatto al tatto ed al tempo stesso soffice. Le collezioni Sicis si arricchiscono così di questo raffinato tessuto, sinonimo di tradizione e innovazione, prezioso simbolo del legame indissolubile tra alta moda e design. In seta, lino, cotone e viscosa, è disponibile in una vasta gamma di colori, che si possono combinare facilmente con le altre Collezioni della Maison.

Leather Collection

To meet the needs of the Interior Design, Sisis realizes its own line of leathers. A lot of attention is paid in the selection of high-quality materials, to ensure resistance, elasticity and a pleasant tactile effect. The range includes different types of leather, from the finest and most exclusive to the printed. The leathers are processed with special finishing and quilted with geometric shapes or other patterns, for dressing furnitures or decorating walls. Leathers are available in different colors, until arriving to the actual metallic foils.

Per soddisfare le necessità dell'Interior Design, Sisis realizza una propria linea di pelli. Molta attenzione viene data alla selezione dei materiali di alta qualità atti a garantire resistenza ed elasticità, oltre che ad un gradevole effetto tattile.

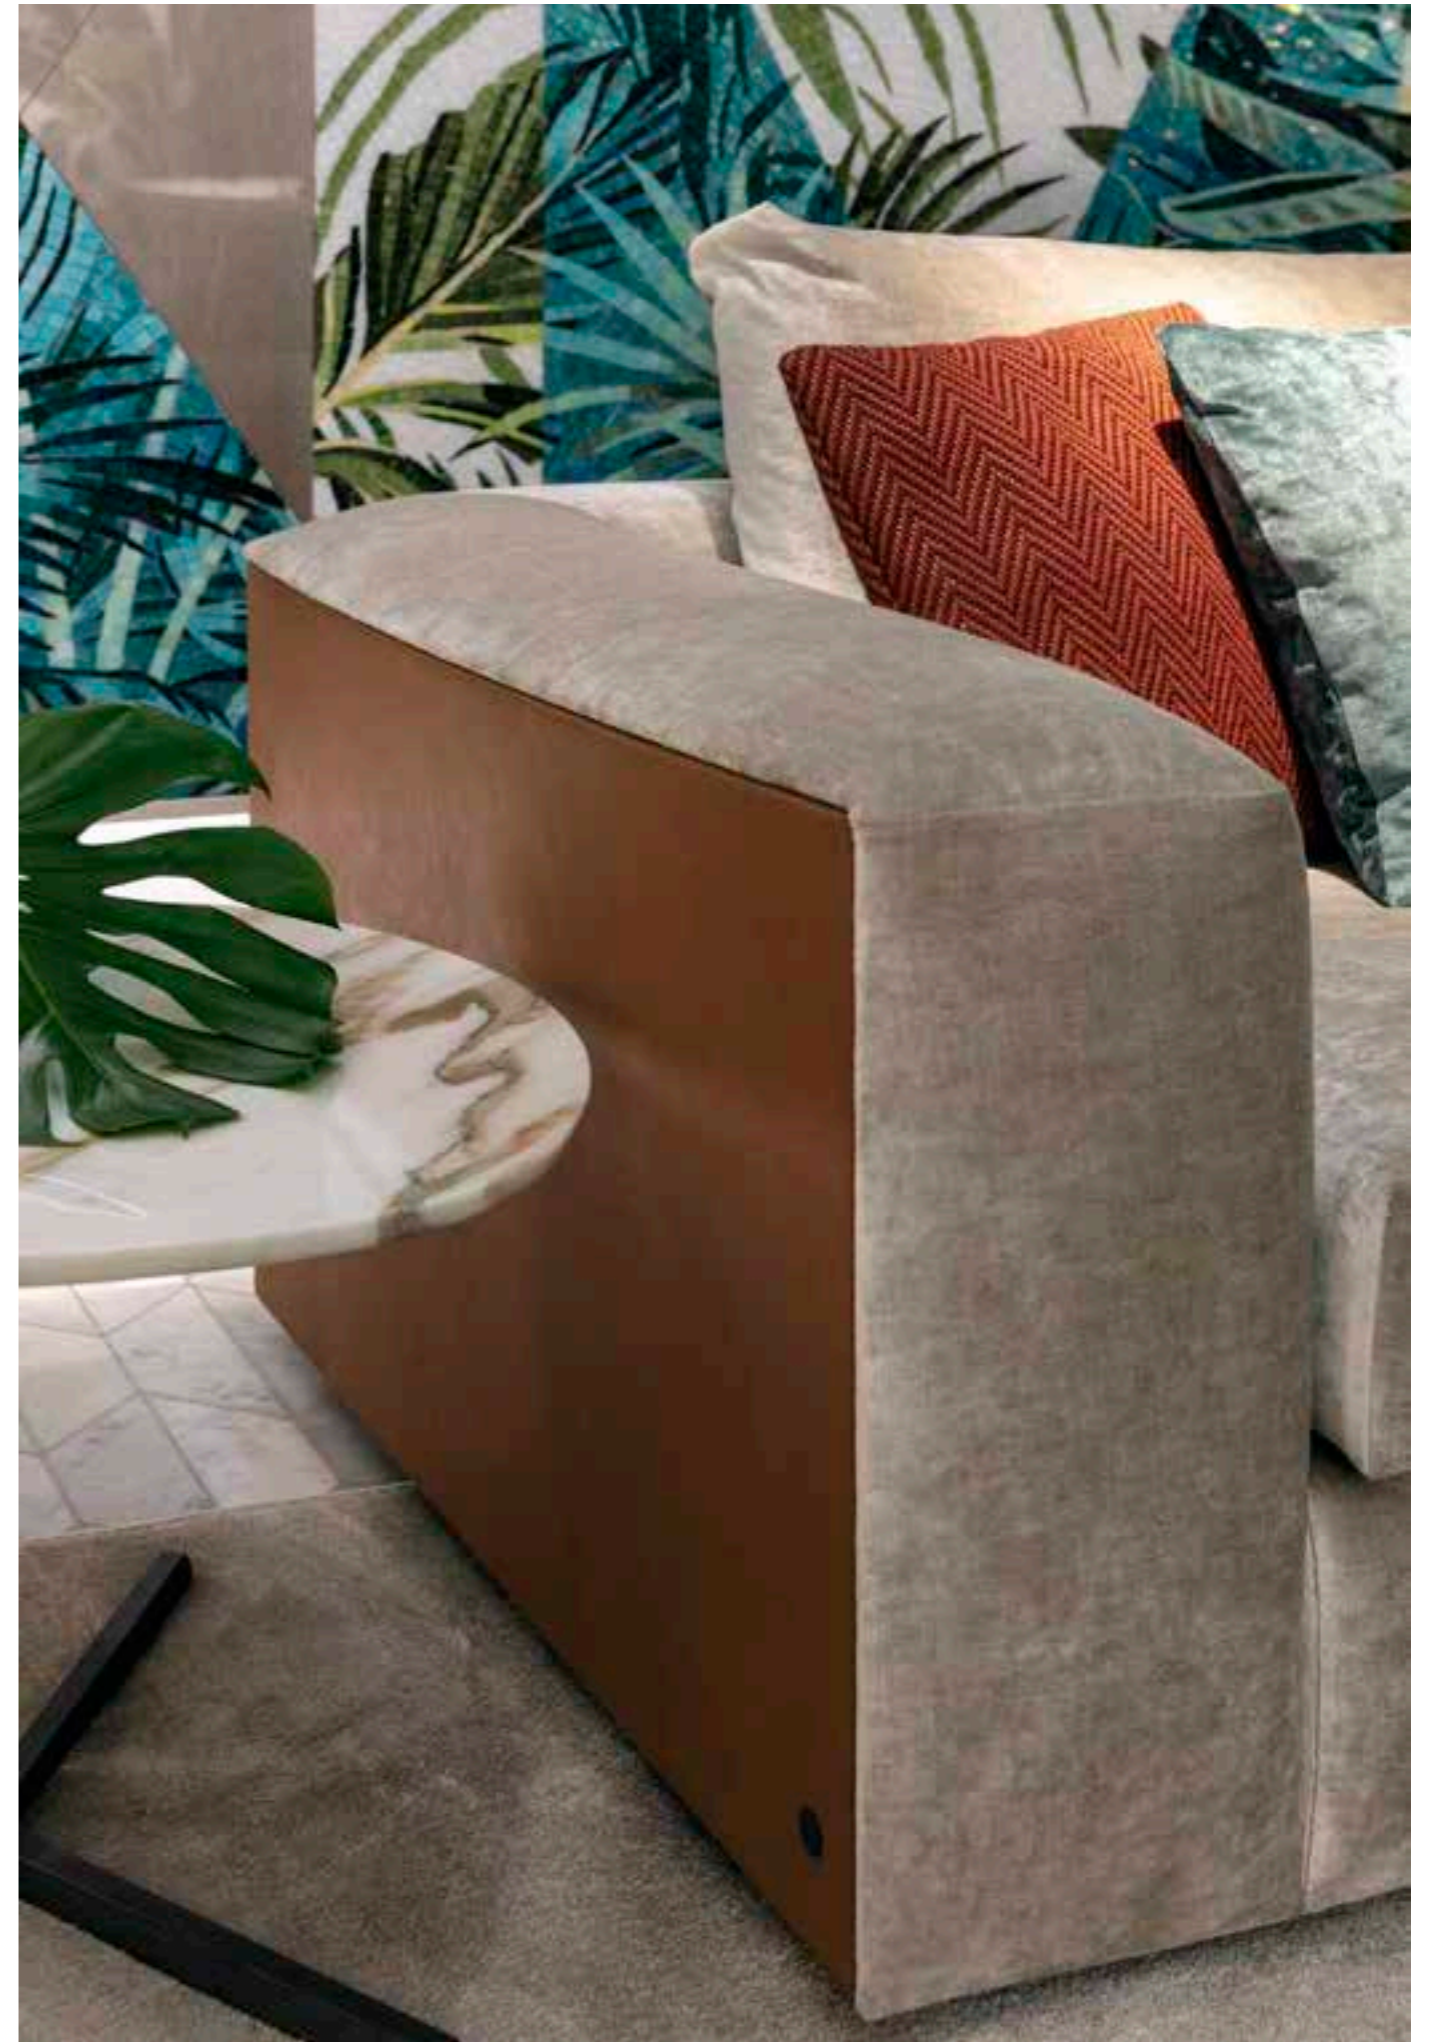

Nella gamma sono compresi diversi tipi di pellami, dai più pregiati ed esclusivi fino ad arrivare agli stampati. I pellami vengono lavorati con speciali finiture e trapuntati con forme geometriche o in altre fantasie, per completare arredi o decorare pareti. Sono disponibili pelli in colori differenti, sino ad arrivare alle attuali lamine metallizzate.

Merchandising

Sicis has designed different types of display that allow to show the entire Sicis Textile Collection in shops and showrooms taking into consideration any need for spaces and set-ups. The vertical displays are made of metal in various sizes that can be used for both walls and freestandings. Along these, there are also table display stands, which can be produced in various formats in order to expose the entire range of the Tessere samples, and to give an immediate and a complete view of both the colors and the patterns. The tables can be made either in Vetrite or in other materials. Other display stands in combination with these allow to expose furniture finishes and precious mosaic handles. All display stands can be customized on request.

Sicis ha progettato una serie di espositori per negozi e showroom che permettono di presentare l'intera Collezione Tessere valutandone ogni necessità sia di spazio che di allestimento. I display verticali sono realizzati in metallo con varie dimensioni e possono essere posizionati a parete o a centro stanza. Altre tipologie di espositori possono permettere l'esposizione parallela anche di finiture d'arredo o di preziose maniglie in mosaico. Esistono inoltre espositori a tavolo, realizzabili in vari formati nella cui parte inferiore è possibile esporre l'intera gamma del campionario Tessere così da avere immediatamente una visione completa sia della cromia che dei pattern. I tavoli possono essere realizzati sia in Vetrite che in altri materiali. Tutti gli espositori possono essere personalizzati su richiesta.
